MR. KIRKPATRICK:

New York Daily News had been doing some investigative work on the case and are now about to come out with the story. He said these people allege that CIA is tied in to this case and wanted to come down and discuss it with Grogan. Mr. Dulles stated he saw no reason why these people should not be told that was not an agent of CIA and we should attempt to discourage their request to discuss this matter with a representative of the Agency. However, if they insist, they should see Mr. Kirkpatrick who would, if the question comes up as to why the Agency sent a representative to New York during the heat of the affair, merely state that we were interested in what takes place in the then and now as well as any other foreign countries. The Director also stated that Mr. Kirkpatrick should steer clear of the should it come up.	Referred to Colonel Grogan's report that two reporters of the
